Experience

Lambda School

Student, Online

August 2019 – April 2020

- Created many iOS projects in Swift and Objective-C
- Learned best coding practices and styles
- Developed in a work-like environment with UX Designers, as well as Front End, Back End, and Android developers to create a beautiful yet functioning product

dōTERRA

Customer Service, Orem, UT

June 2018 – October 2018

- Assisted customers with product orders, account problems, and general questions
- Expanded communication skills with fellow employees as well as customers
- Handled sensitive information (e.g. credit card info, SSN, etc.) with utmost care and responsibility
- Sustained and organized a tidy work space

Shailys

Finance Assistant, Springville, UT

June 2014 – August 2014

- Organized documents and files for the CFO
- Developed new filing and organizational skills and practices

Projects

Habit Tracker

An easy way to keep track of and create new habits

- CoreData and CloudKit used for data persistence after the app is closed or deleted
- Local Notifications to remind users of habits
- Implemented third party frameworks

Community Calendar

To help connect you with your neighborhood

- Implemented authentication and logging in with Facebook and Google
- Queried backend using GraphQL
- MapKit used to show events happening near the user

Accomplishments

- Eagle Scout – Earned my Eagle in 2017 which taught me leadership and hardworking skills
- Service Oriented - Participated in my local youth council where I took part in service activities to help my community
- Leader - Editor and Chief of year book senior year at Shanghai American School in which I learned team leading skills and gained a strong attention to detail
- Communicator - Lived in China a total of 4 years where I attended an international school and was introduced to a vastly diverse set of cultures, ideas, and experiences
